RRB ALP 2024 Answer Key - Know your score

To calculate your score in the RRB ALP 2024 CBT 1 exam, follow these steps:

1. Start by counting the number of questions you answered correctly in each section: Mathematics, General Intelligence & Reasoning, General Science, and General Awareness of Current Affairs.
2. Multiply the number of correct answers in each section by 1, as each correct answer carries 1 mark.
3. Next, count the number of questions you answered incorrectly in each section.
4. Multiply the number of incorrect answers in each section by 1/3, as each incorrect answer results in a negative marking of 1/3 mark.
5. Subtract the total negative marks from the total positive marks to get your net score for each section.
6. Add up the net scores of all sections to get your overall score in the RRB ALP 2024 CBT 1 exam.

Remember to refer to the minimum pass percentage criteria for your category (UR & EWS, OBC, SC, ST) to determine if your score meets the cutoff. Only candidates who clear the CBT 1 exam will proceed to the next round, CBT 2.
